

## Customer Referral Program

One of the greatest accomplishments of a company is the referral and testimony of its customers. At IVS 3D, we are driven towards client driven solutions by providing world-class 3D visualization and analysis software.

For those clients that are willing to provide us with written testimony about our company and our software, we would like to offer a discount on the maintenance renewals of our Fledermaus software. In order to qualify for this program, clients would need to provide IVS 3D with written testimony that we can be used in web site publishing, print/advertising, and press releases. In addition, clients would need to agree to the authorized use of their logo on [www.ivs3d.com](http://www.ivs3d.com) and a link on their own website.

To find out more about our referral program and the discount offered, contact Bill McKernan in the Marketing Department at:
